**ELECTRICAL CONNECTIONS**

**Connection for any DC (polarity indicated) or AC powered hour meter**

- Power Supply
- Switch
- Motor
- Hour Meter
- Thermostat, automatic switch, or manually activated switch

**Connection for T60 and T61 hour meters to obtain true engine run time**

- Alternator
- Voltage Regulator
- Battery
- Chassis or common grounding point

**Connection for any DC powered hour meter for engine run time**

- Battery or Power Supply
- Hour Meter
- Oil Pressure Switch
- Engine

**Connection for any DC pulse counter interfaced to TTL/CMOS circuitry**

- TTL/CMOS INPUT
- DC Counter
- VCC

**Connection for any AC pulse counter to electronic circuitry**

- AC Power Supply
- AC Counter
- Input Pulse
